Join Us in Celebrating the Work of Apprenticeship Professionals!

National Apprenticeship Week (NAW) is a time when we celebrate the benefits and successes of Registered Apprenticeship and the apprenticeship professionals that help make our system a success! Follow us on our LinkedIn page as we celebrate YOU, the hardworking apprenticeship professional, for NAW! Throughout NAW we will highlight your work and hear from colleagues about how they work with business, programs, apprentices, and community partners to build a strong, sustainable Registered Apprenticeship system. Don't forget to share these highlights with your networks and to promote NAW on social media by using the hashtags #NAW2023 and #ApprenticeshipUSA!

Join

Take Advantage of Learning Opportunities During National Apprenticeship Week!

NAW is a great time to take advantage of the many learning opportunities that are part of the celebration. This year there will be virtual learning opportunities about [locating funding opportunities for healthcare apprenticeships](#) and [apprenticeship's role in supporting reentry for individuals that are incarcerated](#), as well as presentations by different industry intermediaries in healthcare and early childhood education, podcasts, and webinars about pre-apprenticeship and youth. Check out virtual offerings as well as events in your state. [Explore and register for events](#) today! If you can't attend, be sure to register to receive the video recording afterward.

Resource

The Network Now Offers Free Online Courses!

Our newly launched [Apprenticeship Professionals \(AP\) Learning Portal](#) offers free on-demand courses to meet the needs of busy apprenticeship professionals. Register now and explore the current course catalogue, which includes:

- Apprenticeship 101: Registered Apprenticeship Fundamentals
- Business Engagement
- Pre-Apprenticeship
- Gender Equity in Construction Apprenticeships

AP Learning Portal content is specifically designed to support the work of apprenticeship professionals at all levels of experience. Content will be continually added. When you create your AP Learning Portal account, your course progress will be saved so you can move through the content in your own time.
