Tell Us About Your 2024 Wins!

There **will not be a November Network virtual meeting** so that you can focus on [National Apprenticeship Week](#) (NAW)! When we reconvene in December, we will celebrate all of the hard work Registered Apprenticeship professionals have accomplished this year! Did you finally stand up a program in a new occupation? Is there an innovative practice or partnership you want to tell us about? Whatever aspect of your work you want to highlight, we want to celebrate with you! Please send a short blurb about your win and include links (if applicable) to [this link](#) with the subject line: Apprenticeship Win! Happy NAW and see you in December!

Sign Up for the Network Enhanced Learning Series on Business Engagement

We are excited to launch a winter 2024 Enhanced Learning Series focused on the consultative sales approach to business engagement. The series will feature four cohort-style calls where participants can practice the phases of consultative business engagement with colleagues. Participants will be required to complete the Apprenticeship Professionals (AP) Learning Portal [Business Engagement course](#) and provide a certificate of completion prior to the sessions and commit to attending all four calls. Learn more and sign up [here](#).

Resource: Using Workforce Funds to Support Apprenticeship

[Making ApprenticeshipUSA Work for the Public Workforce System: Using Workforce Funds to Support Apprenticeship](#) is a quick reference guide that provides information about how Workforce Innovation and Opportunity Act (WIOA) programs can support apprentice training, from on-the-job learning reimbursements for employers to funding for supplemental education costs, such as tuition, fees, books, and equipment. Components of Registered Apprenticeship Programs are identified alongside the specific WIOA programs that can provide funding and case management services. This guide can help apprenticeship professionals inform sponsors and employers about the resources available to offset the cost of training apprentices and promote apprentice success.
